1 Japan's only exhibition specializing in horticultural facilities

This exhibition is the only domestic event specializing in facility horticulture and plant factories, and this marks the 8th edition.

Following a biennial schedule to align with the development cycle of new products, the exhibition consistently offers visitors the latest information.

2 Efficient Business Matching by Holding July

This exhibition is held in July, which is the off-season for horticultural facilities, with the main target group being producers, who are the end users of agriculture.

By holding the event at this time of the year, many producers with specific objectives will be able to gather for efficient business matching.

3 Effective attraction to visitor targets

Seminar sessions featuring industry experts and outstanding producers, unique to industry association-led events, are held daily.

The seminars and organizer-planned events are designed to effectively attract attendees by targeting specific visitor demographics.

Concurrent Exhibitions

Specialized exhibition gathering materials, technologies and services for horticulture and plant factories.
